## Wedding Information Pack 2013-2014

Hi there, thanks so much for your interest in my photography and for asking me to give you more information as your Wedding Photographer. First, I thought I would tell you a little about me. My name is Kate. I love taking and making images.

I like to think of my photography as telling a story, documentary in style. A bit of fun, a bit of blur, a bit of melancholy, a bit of solitude, a bit of celebration and lots of joy.

Choosing your Wedding Photographer is such an important process of your whole Wedding experience. Your photographs will tell the story of your very special day and of your very special love for each other.

While the food may be delicious, the venue divine, the musicians amazing and the day the best ever – your photographs, your album, will be the long lasting legacy of this very special time in your lives. I still love to look at my parents wedding album from the 1950's – such elegance, beauty and happiness.

It is a little different with my own wedding photos. I didn't choose wisely, I chose cheaply. I didn't get an album, just some 5x4 images and a smattering of 5x7's. I have been married for 22 years now and two years ago, my sister kindly assembled the images in an album for us. I am a bit sad that I overlooked what I realise now is the most important part of the day. The documentation of moments too easily forgotten, moments with people who are no longer with us. I should have taken it far more seriously. Well, I do now and I hope you do too.

This is why I put so much time and effort into my wedding photography – to make sure you have a perfect record of your special day to treasure for years to come.

## What you'll get

At least one pre-wedding meet up with me so we can discuss exactly what you want. I typically love meeting up with new clients in a local café where we can discuss everything over a couple of cups of coffee! Packages and albums can be changed if you like – they are just a guideline of what is available. Let's work on something special for you.

## Some tips to help your wedding day run smoothly

Be sure to have a hair & makeup trial at least a month beforehand. This will give you the opportunity to make changes if necessary. Make sure to take all jewellery to the trial to see how makeup shades work with the pieces.

Allowing 50% more time for hair and makeup than you originally anticipated alleviates the number one reason wedding schedules end up running late. This will assure you have plenty of time for all the portraits you want to take before the wedding. Have your flowers delivered to where you are getting ready, not the ceremony venue.

Have an emergency kit with clear nail polish, mints, a sewing kit, stain treater, safety pins, hair pins, mini deodorant and more!

It's no longer considered bad luck for the groom to see the bride before the wedding, so arrange to have your formal photos taken before the ceremony. Getting this done in advance frees up your time to spend with your guests.

Have food (and drink!) at your getting ready location. A bite to eat before the wedding is wise, as it will be a quite a while before the reception.

Find out what the rules for photos are at the ceremony location. All venues are different, some restricting the location and even times for photos.

Make sure you discuss a "rain plan" with the venue just in case the weather isn't amazing.
